### GYROFIN Ship Roll Stabilizer

**Ships equipped with the Sperry Marine GYROFIN Stabilisers reduce ship roll by up to 90 percent.**

Sperry Marine introduces the next generation of ship roll stabilizers that feature a new digital control system, the "Lift Control" design and upgraded machinery units. Sperry Marine's "Lift Control" produces maximum fin efficiency not available from any other stabiliser system.

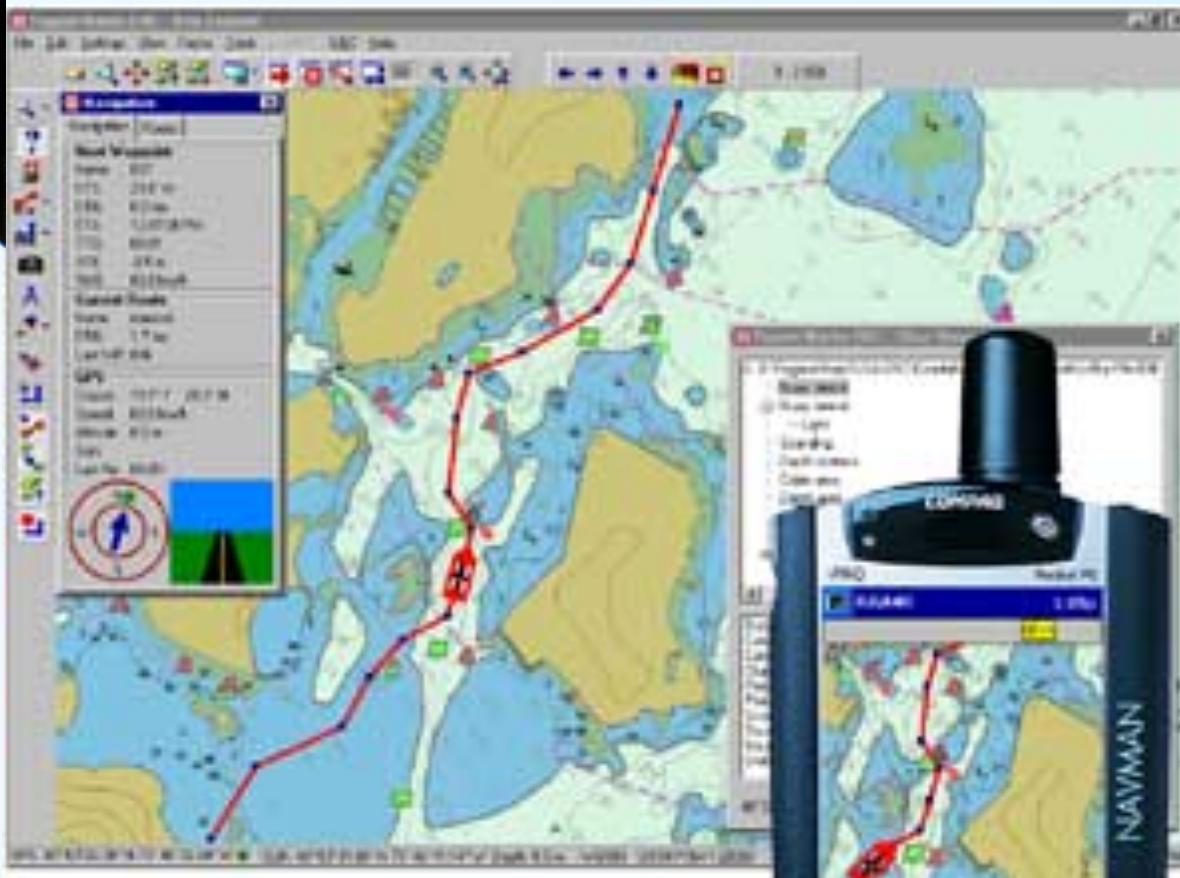

The Sperry Marine GYROFIN ship roll stabilizer is a proven design to maximum performance and reliability. The latest advances in technology have been applied to this design to provide a ship roll stabilizer system that truly delivers ship comfort and safety even in the

## Afford Your Diabetes Device With Bayer Simple Saver™ Program

Filed in archive [Diabetics' Device](#) , [Information](#) , [Information about](#) , [Treatment](#) on March 12, 2009

Having diabetes isn't cheap. Diabetes devices and testing is expensive. What if you can't afford it?

Now, [Bayer Diabetes Care](#) has introduced **Bayer Simple Saver® Program** - offering qualified people with diabetes several ways to save on their out-of-pocket costs for test strips, making testing more affordable and diabetes simpler.

*The program is completely free for consumers and can be used in most states. The Bayer Simple Saver Program can be accessed by consumers via a website which will be promoted through advertising, physician offices, on-line, through Bayer customer service and in pharmacies across the country.*

*Most consumers will be able to save instantly at the pharmacy counter in nearly all locations nationwide. When a consumer purchases test strips, they will receive a discount off the regular price.*

### **Bayer Contour Test Strips**
